

HF Whip Antenna

The Valcom VAS-1011 HF Antenna is a lightweight, 8-section fiberglass antenna for stationary and mobile use, offering reliable high-power performance from 2 MHz to 30 MHz with easy assembly and rugged construction.

BROADBAND COVERAGE

Operates from 2 MHz to 30 MHz average RF power

DURABILITY AND RELIABILITY

The VAS-1011 HF Antenna has 8 fiberglass sections, operates in extreme temperatures, withstands 0.5" of ice, and weighs 19 lbs.

WEATHERPROOF CONSTRUCTION

Weather-resistant with an aluminum base, fiberglass sections, and a rubber tip for RF burn protection

SHIPBOARD ANTENNAS

Can be used in mobile and stationary applications, including vehicles and ships

VAS-1011

HF Whip Antenna

NSN: 5985-00-846-6442

KEY CHARACTERISTICS

VAS-1011

Frequency Range	2 MHz - 30 MHz
Power	1 KW
Height	33.7 ft
Weight	19 lbs
VSWR	Not specified
Polarization	Vertical
Azimuth Coverage	Omnidirectional
Integral Base / Insulator	Not specified

This HF whip antenna features a modular, 8-section design and delivers excellent performance for transmit and receive applications across 2 MHz to 30 MHz. Ideal for both mobile and stationary setups, it is built for durability in demanding environments.

IDEAL FOR:

- Fixed and portable installations
- Operations in extreme temperatures and ice conditions
- Outdoor and mobile HF communications
